Green and Sustainable Services, LLC

Designing Programs For A Better Future, Developing Concepts For Tomorrow And Building Projects For Today!

Advanced Treatment Process

Dirty Wastewater In

Clean Reuse Water Out

Above all else, **GSS** is committed to supplying a cost effective program of products, equipment, and services that provides good results and a low total cost of operation! After all, a low chemical cost alone is no “deal” at all if problems occur that result in production losses, high utility costs, unexpected maintenance, or unsafe operating conditions.

Go Green and Sustain Life!

Green and Sustainable Services' Statement of Qualifications

Green and Sustainable Services' Overview

Founded in 2008, and winner of the 2011 Impact Our World Award, 2013 North America Grand Prize for Excellence in Environmental Engineering and Science, and 2014 Department of Defense Nunn Perry Award, **Green and Sustainable Services (GSS)**, a woman and disadvantaged-owned, and historically underutilized small business firm, develops projects, programs, technology, public outreach and education campaigns that are environmentally responsible, resource efficient and promote good stewardship of the world's natural resources. **GSS** believes the world's natural resources are precious, and conservation of our natural resources helps sustain life. To ensure that the world has adequate natural resources to support our projected growth, **GSS** provides consulting and professional services, products and equipment to assist public and private organizations in identifying technical approaches, processes and solutions to help sustain the environment.

We appreciate your business!

GSS' Products

- HVAC Water Treatment Products & Equipment
- Facility / Industrial Products
- Solvent Based Cleaners
- Lubrication
- Patching Products
- Drain Products
- Water Based Cleaners and Degreasers
- Plumbing Parts & Fixtures
- Spill Absorbent Products
- Biologicals
- Aerosols
- Membrane Filtration

Charlotte Smith (GSS' CEO) is standing in front of an open tank of wastewater (hydraulic fracture flow back water and produced water) from the oil and gas industry. Wastewater is the largest waste stream from oil & gas operations.

Professional Credentials

- Professional Engineer Licensure
 - Civil Engineering
 - Chemical Engineering
 - Environmental Engineering
 - Petroleum Engineering
- Board Certified Environmental Engineer
- Diplomate, Water Resources Engineer Certification
- Green Classroom Professional
- Leadership in Energy and Environmental Design Accredited Professional
- Envision Sustainability Professional
- Certified Professional in Erosion and Sediment Control
- Certified Professional in Storm Water Quality
